SUMMARY

Proficient in Java, Python, JavaScript and MERN stack with hands-on experience in LLM integration, dataset curation, and full-stack development. Eager to build AI-driven software solutions.

EXPERIENCE

IIIT Bangalore — Comet Foundation

Research Intern

Jan 2026 – Jul 2026

Bengaluru, Karnataka

- Researching protocol-layer and software-defined networking challenges in Future 5G/6G wireless communication systems
- Modeled data flows and signal processing pipelines for next-gen 5G/6G network optimization

Qveto Technologies (Certificate)

Web Development Intern

Jun 2025 – Sept 2025

Bengaluru, Karnataka

- Developed and deployed RESTful APIs enabling dynamic content delivery with real-time frontend-backend data synchronisation
- Enhanced UI/UX with responsive layouts and structured error management for improved user experience and reliability

Vaidsys Technologies (Certificate)

Full Stack Developer Intern

Jun 2025 – Jul 2025

Bengaluru, Karnataka

- Built production-ready MERN e-commerce platform with Razorpay payment gateway and JWT-based authentication workflows
- Designed RESTful microservices across full SDLC in Agile/Scrum environment for seamless frontend-backend integration

PROJECTS

FWC Payment Portal (GitHub Link) (Live)

React.js, Node.js, Express.js, MongoDB, JWT, Nodemailer, Google Sheets API

May 2026 – Jun 2026

- Built a full-stack MERN payment portal for IIIT Bangalore's Comet Foundation with multi-step flow and admin dashboard
- Implemented JWT authentication with role-based access control, rate limiting, and Helmet.js security headers
- Integrated Nodemailer for automated email workflows and Google Sheets API for real-time payment record sync

Cypher — AI Desktop Voice Assistant (GitHub Link)

Python, Flask, Speech Recognition, NLP, LLM Integration, OS Automation, PyQt5

Jan 2026 – Mar 2026

- Built an LLM-powered voice assistant with NLP pipelines for real-time intent classification and command understanding
- Curated prompt-response datasets to support conversational AI model fine-tuning for domain-specific accuracy
- Integrated Flask backend with speech recognition for AI-driven instruction parsing and OS-level automation

Data Analytics Dashboard (GitHub Link)

Python, Apache Spark, ETL, React.js, Node.js, Express.js, MongoDB, SQL

Aug 2025 – Sept 2025

- Built a Python and Apache Spark ETL pipeline to clean and transform large-scale datasets for analytical reporting
- Developed Node.js + Express RESTful APIs with MongoDB and SQL aggregation to serve processed data to the frontend
- Designed an interactive React.js dashboard for real-time data visualisation and KPI monitoring

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL

Web & Frameworks: React.js, Node.js, Express.js, Flask, HTML, CSS, Tailwind CSS

Databases: MongoDB, MySQL

Concepts: NLP, LLM Fundamentals, DSA, OOP, OS Fundamentals, DBMS, REST APIs, JWT

Tools & Practices: HuggingFace, OpenAI API, Git, GitHub, Linux, Docker, Postman, Figma, Apache Spark, ETL Pipelines

EDUCATION

B.E. in Computer Science and Engineering

JSS Academy of Technical Education, Bengaluru

CGPA: 8.2

2022 – 2026

Senior Secondary (XII) - CBSE

D.A.V BSEB Public School, Patna — Percentage: 86%

May 2021 – July 2022

Secondary (X) - CBSE

St. Karen's High School, Patna — Percentage: 87%

May 2019 – July 2020

CERTIFICATIONS & ACHIEVEMENTS

- Google Cloud Arcade — Cloud Skill Proficiency Recipient (Link)
- Introduction to Generative AI — Google Cloud (Certificate)
- Skyscanner Software Engineering Virtual Experience (Certificate)
